25X1 10. [redacted] Talked with Mr. Fensterwald who indicated he did not see any possibility of any of the wiretap bills being considered by the Subcommittee next week and in fact he rather doubted that any final action committee-wise would be taken this year. However, he will advise if anything develops. He also indicated that the modified language on the Administration bill had been generally discussed in Committee, but that he could not state that it was focused on in any great detail.
